

GHOSTIFICATION

Michael Franz Whitby

Cloud 876!
Has been on standby mode...
...reserved!
Since February 17, 1963
Waiting for Mr. Michael Franz Whitby

Writtenments' in the good book states:
There shall be no re'writtenments
So sayth, the creator
That's the way it shall stay for eternity
Caveat for those not respecting the creator...
...of cloud 876!

Answers to that intriguing question
:Why 876?
Not just a random number drawn on February 17...
...and assigned!
Because others of said date will be assigned different
That's a part of the mega'mastery of the creator' work
Soon full illumination shall be displayed unto Mr. Michael Franz Whitby
But not until when the creator wishes

Cloud 876!
A part of environmental commute to the next journey
Rising to that substantial enlightenment
When ones' breath has been taken away
At that time...
...Cloud 876 becomes the source
To map the road to walk lite
Because on clouds, there are nothing real heavy
Where lifeless regain life from the ghost's' heart
That's the 'ghostification' process...
...of cloud 876!
